

Worksoft Certify and AppliTools Eyes Integrated Process Example

Certify Process: AppliTools Webpage Comparison

Process Steps

Step#	Narrative	Application Version	Window	Object	Action
1	Load "https://www.worksoft.com" into "Chrome".	System 1.0	Browser	Browser	Load Browser
2	Pause the Process Execution for "2" seconds.	System 1.0	System	Execution	Wait
3	Capture current image of the "Active Window".	System 1.0	System	Operating System	Capture Screen Image
4	Open Eyes with Server URL = "https://eyes.appliTools.com" API Key = "pRfUnRfqXagTSDBF02y101qvOIW6108mslep99100FLMj51060x1110"	AppliTools 1.0	AppliTools	AppliTools	Open
5	Start "Worksoft.com" "Worksoft Web"	AppliTools 1.0	AppliTools	AppliTools	Start
6	Load Image with Step Name = "Worksoft Homepage"	AppliTools 1.0	AppliTools	AppliTools	Load Image
7	Close Eyes with Fail on Mismatch = "True"	AppliTools 1.0	AppliTools	AppliTools	Close
8	Close the most recently used browser window.	System 1.0	Browser	Browser	Close Browser

1. Open the browser to a specific URL or launch any application, mobile device, or user interface with the **Load Browser** action: System > Browser > Browser > Load Browser

Parameters for Load Browser

→ ⓘ Browser
Chrome

→ ⓘ URL
https://www.OrganizationXYZ.com

2. Pause execution for two seconds to allow time for the page or application with the **Wait** action: System > System > Execution > Wait

Parameters for Wait

→ ⓘ Delay
2

3. Take a screen capture of the active window of the browser, device, or application with the **Capture Screen Image** action: System > System > Operating System > Capture Screen Image

Parameters for Capture Screen Image

→ ⓘ Capture Screen Type
Active Window

- 4. Connect and open the AppliTools Eyes integration with the **Open** action: AppliTools 1.0 > AppliTools > AppliTools > Open
Server URL: <https://eyes.applitoools.com>
AppliTools API Keys: Copy the API key from <http://eyes.applitoools.com> under the user information drop-down list.
Example: 1abcDe2f3456ghi789JKlmNopqRst0uV1W2xYGzAb3CdeFg456

Parameters for Open

→ ⓘ Server URL
https://eyes.applitoools.com

→ ⓘ API Key
1abcDe2f3456ghi789JKlmNopqRst0uV1W2xYGzAb3CdeFg456

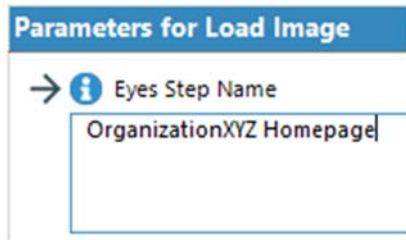

- 5. Start the AppliTools application and test with the **Start** action: AppliTools 1.0 > AppliTools > AppliTools > Start
Example:
OrganizationXYZ.com Web
OrganizationXYZ Web Test

Parameters for Start

→ ⓘ Application
OrganizationXYZ.com Web

→ ⓘ Test Name
OrganizationXYZ Web Test

6. Load the current desktop, application, device, or browser image to AppliTools Eyes with the **Load Image** action: AppliTools 1.0 > AppliTools > AppliTools > Load Image
Provide an **Eyes Step Name**.
Example: **OrganizationXYZ Homepage**

7. Close the AppliTools Eyes connection with the **Close** action: AppliTools 1.0 > AppliTools > AppliTools > Close
Select the **Fail On Mismatch** option to allow AppliTools Eyes to do a visual artificial intelligence comparison. The action compares screen capture with the corresponding screen capture on the AppliTools server that is listed in the Load Image action for the same API Key, Application, Test Name, and Eyes Step Name combination.

8. If required to cleanup before the end of the automated Worksoft Certify process, close the browser, application, or device with the **Close Browser** action: System > Browser > Browser > Close Browser
